THOMAS SWANNER, a blind veteran, this week started a newsstand and candy counter in the Palm Springs postoffice, and has been given a good reception by Villagers and visitors.

Swanner, 38, after 16 months of cutting red tape to get approval to open the stand, started his business Monday morning and has already made dozens of friends among the postal patrons.

Blind Veteran, After 16 Months, Gets O.K. on Postoffice Newsstand Here

As Palm Springs residents and visitors walk into the Palm Springs post office building on North Palm Canyon Drive, they will notice a new business, a newsstand and candy counter, operated by blind veteran Thomas R. Swanner.

Swanner, 38, after 16 months of cutting red tape to get approval to open the stand, started his business Monday morning and has already made dozens of friends among the postal patrons.

In order to open a vending counter in a U.S. Post Office, the person must be certified by the State Department of Health, Education and Welfare, after which that department furnishes the equipment needed for the business. The post office department furnishes, with out cost, the space and needed utilities.

Three men who played a major part in helping Swanner get started were Postmaster Merritt Williams; Robert Melody, business enterprise officer of the State Department of Health, Education and Welfare; and Harry L. Runion of the Department of Education.

Swanner, a native of Kentucky,

City Lends Funds To Two Agencies

City of Palm Springs made two loans Tuesday from its unappropriated reserve, to other departments in the city, with both to be repaid.

Council approved the transfer of \$25,000 to pay for work on South Palm Canyon Drive until bonds can be sold for that project, and the transfer of \$10,000 to the waste disposal department until revenue picks up in the fall.

The latter transfer is an annual event, with the waste disposal department paying back the funds later.

FLYING SAUCERS

Your old columnist climbed the hill to see whiskered "Sky-Eye" Jones, the old timer that fixed himself a telescope out of a hollow log.

"I will talk while you get your breath," said my star-gazing friend.

"The closest moon can come to the earth is 221,463 miles. There are 40 billion stars in our universe, and our universe is only one of 75 million, (which should give you an idea of how important you are)," he said, smiling.

"But how about saucers," I asked. "How about all the stories people are telling about saucers?" "Sure," he said, "let 'em talk. I can't drink out of a blooming cup with these whiskers."

Some folk seem to get the idea they're worth a lot of money just because they have it.

Villagers Still Question Whether Justice Was Meted in Graham Murder Case

"Palm Springs this week is recovering from shock, and is looking forward to justice. The shock of hearing of the brutal murder of Donald E. 'Dutch' Graham is passing, anger and hatred toward the perpetrators of the crime is disappearing, and demands for justice are ringing out."

Today, on the first anniversary of the crime, residents of the Village are wondering what has happened to the two people who were sent to prison after they were found guilty of the robbery and brutal murder of Palm Springs Building Inspector Donald Graham, and, as was expressed above in the lead paragraph in The Desert Sun of a year ago, have the "demands for justice" been carried out?

ROBERT AND MICHAEL Elizabeth Miers, of Baldwin Park, on the morning of August 25, 1955, left their four children with a baby sitter and headed for Palm Springs. Just after midnight that night, with the stolen Graham car, the couple were fleeing the scene of what has been described by local police as "the most vicious crime in the history of the resort community."

Captured in Kingman, Arizona, within 26 hours after the crime, they stood trial in Indian Superior Court. Robert pleaded guilty to robbery and murder in the second degree and Michael Elizabeth was sent to prison for robbery. Judge Hilton McCabe sentenced the couple to "terms prescribed by law" and both went to California state institutions.

Robert Miers was taken to the California Institution for Men at Chino on November 2, 1955, and from the reception guidance center at that institution he was transferred to the California State Prison at San Quentin on December 29, 1955.

ROBERT MIERS

MIERS HAD A long record of previous arrests and convictions, and all these will be considered when he appears before the Adult Authority for sentencing some time in May, 1957, 18 months after he was sentenced to prison. The crime of second degree murder calls for a sentence of from five years to life, and for robbery, one to 10 years, and was not lessened by supplementary reports of the probation department or Judge McCabe.

Michael Elizabeth Miers, after being denied a plea for probation, was sentenced to the California Institution for Women at Corona, within a week after her husband had gone to prison. She pleaded guilty to second degree robbery after Riverside District Attorney William O. Mackey dropped the murder charge to save court costs.

In May, 1956, Michael Miers' sentence was set by the Board of Trustees of the California Institute for Women, and she was given a term of eight years.

MISS ALMA HOLZSCHUH, su-

MICHAEL ELIZABETH MIERS

perintendent of the prison, told The Desert Sun that Mrs. Miers "is getting along all right" at the prison. She can appear before the Board of Trustees for parole from prison, but no date for her appearance has been set. Late last week, legal action was brought against the couple by the estate of Graham, suing the pair for the return of approximately \$250 that was found in their possession at the time they were arrested.

Because they are being held in prison, it is impossible for them to appear in court to contest the civil matter, and the only recourse for attorney Robert Schlesinger, who is handling the estate, is to either make a settlement with the couple or take depositions and proceed with the court hearing.

The taking of depositions would be so costly that this course would be hardly worth while, so an attempt will be made to make a settlement. In the meantime, the Graham estate cannot be officially closed.

Although it has been one year since the body of Graham was found brutally beaten in the blood-spattered kitchen of his home, Villagers still remember the violent death of the building inspector, and watch with care the balancing scales of justice.

Blowout Upsets Auto; Sheriff's Captain Injured

Capt. Sam Hoffman of the Sheriff's Substation at Indio, escaped serious injury Friday night when a tire blew out on his car, and hitting loose gravel caused him to lose control of the vehicle, resulting in it overturning, near White-water.

The accident occurred about 7:45 p.m., and was radioed to his office over the car radio by a passing motorist, at his direction. He was brought to Desert Hospital, where his condition was reported good Saturday afternoon. He was expected to be discharged Sunday.

County Notified Of New Litter Signs on Roads

The board of supervisors was notified Monday by C. V. Kane, district engineer with the State Division of Highways, that the California Highway Patrol is now enforcing Vehicle Code provisions on trash disposal and that all signs necessary to eliminate "as far as possible" the litter problem on state highways in Riverside County will be posted as a new program for elimination of trash along the highways becomes effective.

Kane said that on a trial basis signs are now being placed at county lines on all state highways reading "Unlawful to Dispose of Litter or Garbage on Highway." The signs are also being installed at locations selected by the State Highway Maintenance Department as points of litter concentration. The information afforded by Kane resulted from a request by the board of supervisors, instigated recently by Supervisor George Berkey, that anti-litter-bug signs be posted.

1957 Fashion Roundup at Desert Inn

Men's and Boys' Apparel Groups Will Meet Jointly

The 1957 Spring Fashion Roundup presented by the Men's and Boys' Apparel Guilds in California will be the most dramatic and exciting event ever staged by the two associations, according to Knute Thorsen, executive director of the Guilds. It will also be the year's largest for the Village.

The Roundup will take place October 12 and 13 in Palm Springs and October 14 to 17 in Los Angeles. Palm Springs headquarters will be the Desert Inn Hotel and the Ambassador Hotel will be the center of activity in Los Angeles.

Chuck Bailey (George S. Bailey Hat Co., president of Magic, and Walter Kaufman (California Sportswear Co.), president of Bagie, stated that all of their members had been working energetically to make the 1957 Roundup the most interesting and beneficial event in history. A full program has been planned for both Palm Springs and Los Angeles.

THE THEME FOR THE 1957 Spring Fashion Roundup will be "The Rim of the Pacific." Retailers will be introduced to the theme from the moment they register until they leave. "The Rim of the Pacific" will surround them in all of the business sessions and in all of the entertainment events. Style wise, "The Rim of the Pacific" will be the most delightful surprise of the decade, the two presidents said.

Registration will open on October 12 at 1 p.m. at the Desert Inn. Retailers are urged to arrive early because the first business session starts at 4 p.m. on that date. This first event will be a merchandising tour in downtown Palm Springs. Special window displays, promotional ideas and merchandising talks will take place in selected Palm Springs stores.

At 9 p.m. that evening retailers will be treated to a major motion picture preview of "The Mountain," starring Spencer Tracy and Claire Trevor. This will be the first public showing of this picture which Paramount will present exclusively for Magic-Bagie guests. The preview will be in keeping with a Hollywood presentation.

SATURDAY, OCTOBER 13, will be a full and exciting day. At 10:15 a.m. a dynamic Merchandising Program and Fashion Forum will be presented. Noted guest speakers, garment displays, and promotional material will be featured, and the practical side of fashion will be stressed during this hour long Forum.

At 1 p.m. a Magic-Bagie Golf Tournament will be held with trophies, prizes and fun for all who enter. Also at 1 p.m. the ladies will be escorted on a Palm Springs Desert Tour, showing scenic attractions of this world famous desert resort.

The most inspiring Style Show ever to be presented by the Guilds will be staged that evening at 6:15 p.m. Featuring the "Rim of the Pacific" this dramatic night Style Show will be highlighted by colorful rear-projection backdrops and striking lighting effects. The Style Show will last 90 minutes, with the setting on the beautiful grounds of the Desert Inn Hotel.

After the Style Show, guests will adjourn for a social hour and get-together. Then, at 8:30 p.m. a Dinner Dance under the stars will be held. Informal attire will be worn to the dinner dance.

On Sunday, October 14, the Roundup will go to the Ambassador Hotel in Los Angeles.

Sept. 13 Last Day For Registration

Voters may register for the November election up to September 13, was the warning issued today. Registration may be made at the city clerk's office daily, or at the home of Mrs. Edna Brott, 633 Indian Trail, from 6 to 9 p.m. Thursdays and Fridays only.

HAWAIIAN HOLIDAY travelers returned to Palm Springs at 6:30 a.m., Saturday, aboard a Trans-Ocean Air Lines plane which stopped here before going on to Los Angeles. The group was accompanied by Miss Hawaii, Jane Wright, 20, a student at the University of

Hawaii, who was en route to the Miss America contest at Atlantic City (see inset). Among the gaily clad Villagers returning were Mr. and Mrs. Anthony Kehl and children, Steven and Patricia, shown leaving the airplane. (Anderson Photos).

Pioneer's Sale of Turtle Collection To Spur DHS Hospital Campaign

To provide a unique desert flavor to the Penny Carnival, to be held here September 1, Desert Hot Springs pioneer Cabot Yerxa will offer for sale at the carnival his famed collection of desert turtles.

Proceeds will go to a fund for construction of the Angel View Crippled Children's outpatient clinic, as will all other proceeds of the Penny Carnival.

ONE OF THE 15 turtles Cabot will offer for sale is estimated to be 100 years old, and has been in captivity for 30 years.

The turtles all are good-sized—10 inches long or more and will be \$25 for the 100-year-old.

Cabot asserted the turtles have a potential profit-making aspect. Desert turtles lay eggs in June, which hatch in October. The baby turtles are popular with tourists, to whom they can be sold for

prices ranging from \$3 to \$5. Cabot reports.

CABOT PROVIDES this further turtle lore:

Turtles make excellent pets, since they require little space, are very clean, and can be fed lettuce, grass, and fruits such as bananas and peaches. They are fond of corn on the cob.

Desert turtles don't bite. They learn to know their owner's voice and will come when called.

C. of C. Traffic Drops a Little

Traffic at the Palm Springs Chamber of Commerce during July compared favorably with the same month last year, Manager Jimmy Cooper reported today.

Walk-in traffic was slightly less, 587 to 561, with phone inquiries increased from 488 to 540. Letters requesting information dropped from 479 in 1955 to 240 last month.

All figures are far ahead of the July 1954 marks, Cooper said.

Williams Explains Postage-Due Rules on Mail

Complaints received at the Palm Springs post office indicate that there is need for clarification of postage-due regulations, Postmaster Merritt Williams said today.

"Confusion quite often results when a letter is returned for postage due, or when a letter is returned to be enclosed in a new wrapper," Williams said.

The postmaster explained a letter will be returned to the sender for postage when the envelope has less than one full rate of stamps affixed. If the return address is located at another post office, the sender will be sent a notice of the amount due. If no response is received, or if the letter does not have a return address, the addressee will be notified of the amount of postage due.

Williams said when insufficient postage is affixed but at least enough for one full rate has been prepaid, the letter will be dispatched and the office of address will collect the postage due. When first class mail is short-paid for more than one full rate, the postage due charge is the amount of deficient postage plus one cent for each short-paid ounce.

"Most inquiries on postage-due mail are received when double postage is charged," he added. "If any mail reaches the office of delivery with no evidence of prepayment of postage, double the regular rate is collected under postage-due regulations."

Concerning letters returned to be enclosed in a new wrapper, the Postmaster explained that when an envelope has had service and is returned to the sender it bears the rubber stamp imprint of a hand with the notation "Return to Sender." If the envelope is returned with new postage paid, there is a danger that it will be returned immediately to the sender. "Consequently," the postmaster said, "the wise thing to do is to use another envelope."

He said whenever there is doubt as to the reason for any action taken by the post office, his office will be glad to provide an explanation.

SoCal Pipeline Contract Let

R. H. Fulton & Co. of Lubbock, Texas, was awarded a contract today to construct a 241-mile, 30-inch natural gas pipeline from Newhall to the Colorado River near Needles, costing an estimated \$24 million. Work will begin in January.

This is the major portion of a \$35.5 million pipeline construction project jointly undertaken by Southern California Gas Co. and Southern Counties Gas Co. to bring an additional 278.2 million cubic feet of a gas a day into Southern California.

A 49-mile pipeline from Newhall to Alhambra, which will connect with the major line, is now under construction, and is expected to be completed by December 1.

Villager Mans Anti-Aircraft Gun Aboard Cruiser

DONALD P. WELLS

Acting as director of an anti-aircraft gun aboard the heavy cruiser USS Newport News is Midshipman Donald P. Wells, son of Mr. and Mrs. B. O. Wells of 325 El Portal. He is a student at the University of Southern California.

One thousand midshipmen representing 52 colleges and universities are embarked on 14 ships of the Atlantic Fleet in the summer's third midshipman training cruise. They will visit Panama and Cuba before returning to the U.S. August 24.

During their time at sea the midshipmen get actual "on the job" training in gunnery, navigation and engineering to prepare for duties they will perform as Navy Ensigns after graduation from college.

Highway Patrol Examinations Set for Oct. 13

Prior police or traffic training is not a requirement for the state traffic officer examination set for October 13, according to word released today by the California Highway Patrol.

"Successful applicants for state traffic officer positions in the Patrol will be given full training at the Patrol Academy near Sacramento," declared Patrol Commissioner B. R. Caldwell. "Graduation from high school or equivalent, top physical condition, good character and age 21-31 are the chief requirements."

"Other requirements necessary; a height between 5' 9" and 6' 6", proportionate build, a valid California driver's license and no criminal record," Caldwell continued. "Ability to ride a motorcycle is not a requirement; however, all successful candidates will receive training in motorcycle riding at the Patrol Academy."

"The benefits of a retirement program and the civil service status of state traffic officers offers strong inducements to qualified men to apply for this examination. It is anticipated at least 6,000 or 7,000 young men will file for the deadline September 14."

Further information concerning the position and examination may be secured from the Patrol office in Indio.

Thrifty Drug Opens Contest For Free Auto

Thrifty Drug Stores today announced another promotion contest begins on September 1st, with a 4-door Renault car from France as the major prize. In order to win this imported automobile that gets 51 miles per gallon, Thrifty patrons merely visit the cosmetic department of their neighborhood Thrifty Drug Store and ask for a free entry blank.

Major Clapp is participating in Annual Unit Field training with the 621st Army Reserve Service Unit, Sacramento Army Reserve School, which has been transferred to the Presidio for a special instructional mission.

Police Training Course Offered

New law enforcement officers in this area will be better trained—and there will be more of them—if the objectives of a new peace officers training program to be offered this year at Riverside College are fully realized.

Two courses will be offered each semester this year. They are crime and criminal justice; arrest, search and seizure; criminal law; and criminal evidence.

Next year it is planned to add patrol practices and techniques; criminal investigation; traffic control; and accident prevention; delinquency control and prevention; and problems of physical evidence.

This work will thus form a two-year program in law enforcement. When combined with other courses in general education, it will lead to the Associate in Arts degree.

Courses in the new law enforcement program will be open to both men and women students of at least 18 years of age. All must be in excellent health and physical condition. Male students must be 5'9" or over; women students must be at least 5 feet tall.

PROPERTY LINES

By the Palm Springs Real Estate Board

Due to the fact that we made a few comments recently relative to "What's new" in household fixtures and appliances, requests have come in for a few more facts about houses. And, by the way, you will find many of these up-to-the-minute gadgets being included in houses right here in the desert area.

Since we always think of the ladies first... and the ladies are the head of the department known as the kitchen... Let's take the kitchen... Word comes to us that we may expect some of these things right soon:

Refrigerators that can be hung on the wall or suspended from the ceiling... Power units installed in work tops; a unit driving food-mixer, juicer, knife-sharpener, or blender.

OF COURSE, WE ARE getting accustomed to built-in ovens and stoves... they are coming out with push-button doors and other gadgets... Just be sure the oven is at the right height... But—Electronic ovens, cooking with micro-waves, are on the way... Cooking time... Roasts in 20 minutes; chicken in nine minutes; potato in two minutes... And don't forget that color is coming into your kitchen life—floors, walls, ceilings, fixtures and appliances.

Electrical systems will change... Wired mousing with an abundance of plug-ins has arrived... Remote controls are becoming more evident... One control now available enables you to operate as many as 25 lights throughout the house from one place.

A moisture control makes a rain alarm... heat detectors make fire alarms... doors open and close with light rays, or the spoken word... and an inter-com system will act as communication setup, radio or phonograph music pipe, electronic baby-sitter (even a picture maybe—TV)... And much more.

AND HERE'S A DILLY — will the ladies love this... The latest thing being developed in house cleaning is a built-in vacuum system... Y's... A built-in vacuum cleaner.

This gadget is built into a certain spot—motor and all—with a 60 foot cleaning hose... You just go through the house with the hose... Pick up all the dirt; and the dirt is washed down the drain... right into the sewer... Will even shampoo rugs, or pick up spilled liquids... Warning! Watch the loose change in the future, there might be a built-in cleaner in the home.

That's escrow for today.

Briton Says Mothers Should Rear Young by Instinct, Not Psychology

LONDON—Sir Basil Henriques believes American mothers should trust their own natural instincts in the rearing of children and pay less attention to books filled with "undigested psychology."

"And maybe," he said, "they will begin to control the simply frightening juvenile delinquency problem in the United States."

A large and amiable man, Sir Basil is one of Britain's leading authorities on the subject. He recently returned from a tour that took him as far south as Miami, west to Salt Lake City and north into New England.

"I SAW JUVENILE delinquency much worse than anything I have ever seen in Britain," he said. "It is a staggering problem, but I do not think it hopeless and I reject the excuses one hears for this state of affairs—'Well, we have many races you know' and so on."

Sir Basil pointed out that juvenile delinquency figures have been falling steadily here and are almost back to prewar.

"We still have many serious cases of course," he said, "but nothing like what I saw in the United States. Gangs of boys 12 and 13 using knives and guns, stabbing and shooting."

What's wrong with American kids?

"Partly this belief of their mothers that they must not repress their children," he said. "They get their own way much more than is good for them. There must be a framework of discipline and

children must learn they cannot trespass it with impunity either at home or in school."

Sir Basil also is opposed to juvenile police bureaus.

"Over here any child over the age of seven or eight who commits an indictable offense comes before the court, the same as an adult. He learns that he is old enough to be held responsible for his actions. He learns, more importantly, that he cannot evade things."

One of the new villains of the American situation is television, according to Sir Basil. He said there was too much of it, that it kept children from reading and studying and set the impressionable ones too many bad examples in the crime programs.

Ex-Political Expert Plans Return To Active Participation in Party

A leading Democrat who for many years has supported Republican candidates, today came out for the Democratic Party's Presidential ticket of Adlai Stevenson and Estes Kefauver and announced that he plans to take an active part in this campaign.

He is Leo G. Athans, manager of Palm Springs Lincoln Mercury, who has been identified with the Democratic Party since 1933 when he organized more than 50 Democratic Clubs in the State of Massachusetts.

In 1940 he was a member of the Democratic State Committee under the chairmanship of Robert "Robby" Robertson, state senator from Santa Barbara; a member of the party's speakers bureau, an organizer and chairman of minority groups, and speech writer for John Roosevelt and the present senator from Massachusetts, John Kennedy, who just missed this year being the Democratic Vice Presidential nominee.

In 1950, as a Democrat, he worked for election of Mayor Fletcher Bowron of Los Angeles, who is a Republican, and served as chairman of his speakers bureau. He was organizer and chairman of the minority groups division, and served as chairman of the Foreign Consulates Steering Committee of Los Angeles.

In 1954, again as a Democrat, he supported the campaign of Governor Goodwin Knight, and was organizer of the California State Minority Groups Division, and a member of the state speakers bureau.

He has stayed out of the political picture since coming to Palm Springs but is now ready to re-enter the scene.

"I'm very hopeful that the Democratic party can regain the Presidency this year," he commented. "They have a united party, and their chances now are excellent."

Truck Cargo Thefts on Sharp Rise; Losses Exceed \$100,000,000 a Year

NEW YORK — A crime that helped to give the "roaring 20's" its name has come back like a lion in the postwar period to plague both law enforcement officials and industry.

State Having Its Worst Auto Death Record

SACRAMENTO — "Traffic law violators are potential killers," says the California Highway Patrol.

"This statement is based on the fact that 86 per cent of all traffic accidents in California last year were the result of traffic law violations," declared Patrol Commissioner B. R. Caldwell. "This year we are experiencing what is expected to be the greatest traffic death record in the history of the state."

"Frequently the difference between a minor traffic accident and an injury or death dealing crash is the element of luck," Caldwell continued. "Every enforcement effort of this department is geared to stop all traffic violations and accidents through the professional patrol and control of traffic."

"Our success depends, to a great extent, on the cooperation of the drivers who use our highways," he said. "Self-policing by every motorist will aid in reducing the traffic accident toll in that each driver who follows the rules will be most apt to stay out of accident trouble and avoid becoming a killer."

James H. Rankin Dies at Home

James Hubert Rankin, 62, 1000 Highway 111, died at 10:30 a.m., Tuesday, August 21, at his home, due to a sudden heart illness.

A native of Texas, he had been a resident of Palm Springs for two months, and of California for 10 years. He was a night porter at the Palm Springs Biltmore Hotel.

Funeral services were conducted at 10 a.m., Saturday, August 25, at the Wiefels and Son Chapel, with the Rev. Jack Morrow, pastor of the Four Square Church, officiating. Interment followed in Palm Springs Cemetery.

Survivors include two sons, John Rankin of Sparger, Texas, and Gerald Rankin of Seattle; two daughters, Mrs. Oletta Bollinger of Albuquerque, and Mrs. Chloctel Woods of Texhoma, Oklahoma; two brothers, G. Carroll Rankin of Long Beach, and Charles W. Rankin of Guyton, Oklahoma; and three sisters, Mrs. Cora Glenn, also of Guyton, Mrs. Beulah Grant of Dimmitt, Texas, and Mrs. Pearl Clouse of Amarillo, Texas.

Following a precedent set in dealing with The Dunes, city council Tuesday approved the establishment of a soda fountain at 196 North Palm Canyon Drive, provided \$2,500 is paid into the city's off-street parking fund.

The Dunes previously was permitted to enlarge its establishment without providing additional parking space, provided they contribute \$7,500.

Applicants for the establishment of the soda fountain are Kingston Stone and Madge Whitacre.

The \$2,500 figure was recommended by the variance board, with council taking final action.

LIQUOR IS A favorite target of the "truck rustlers." In Baltimore last month the FBI seized three men only a few minutes after they hijacked a tractor trailer carrying \$50,000 worth of whisky.

But scores of other easily disposed of items such as furs, tobacco, food, appliances, clothing and even metals stand high on the hijacker's list of popular items.

Like the bandits of the Old West who knew exactly which stagecoach was carrying the gold, today's hijackers know what cargo a truck is hauling and what route it will follow. Sometimes they slip up, like the time a gang wound up with 15,000 bibles.

Officer Maurie Aitken caught the two boys after a call to headquarters was received from a hotel operator who saw the lads tampering with the car.

The boys, after admitting they had taken the money from the Youth Center, were put in the custody of their parents pending further disciplinary action.

Auto Tampering Nets Teenagers

A call, received by police concerning the tampering with a vehicle brought about the capture of two Palm Springs teenagers Monday who had stolen a total of \$2.80 from the Palm Springs Youth Center.

Planner Says A. C. King Homes Are Top Quality

A. C. King, land developer and builder of homes by the hundreds, had it all his way when he appeared before the Palm Springs Planning Commission Wednesday intent on straightening out an alleged misunderstanding regarding the quality of the homes he intends to construct on East Ramon Road.

Before he had finished, Hy Ranes, city planning director, informed the builder that neither he nor the planning commission held any adverse opinions of King's structures. Nor has King's work, Ranes added, been criticized at any commission meeting.

"As a matter of fact," declared Ranes following the meeting, "I would like to buy one of the A. C. King homes. And it is my opinion that the entire commission was impressed with the type of home he is going to erect. We were surprised, too, at the proposed selling price."

A. C. King, Inc., has announced plans to build 505 homes ranging in price from \$10,000 to \$14,000. The first 61 building permits, totaling \$750,000, are expected to be in the hands of the building concern Monday. Fifty of these homes will be sold to veterans under the GI Bill of Rights financing plan.

RED CHINA AND THE U.N.

It is becoming more apparent all the time that the only way Red China's admission to the U.N. can be prevented is by a threat that the United States will withdraw from the organization if such action is taken. The subject will undoubtedly be brought before the general assembly meeting of the U.N. in November, a week after our Presidential election. A feeling exists in Washington that the strongest effort yet to seat Communist China is going to be made at that time.

There has been no international issue in years on which the people of this country have been so united as their opposition to admitting to the U.N. a nation which is holding Americans as prisoners, nor has there been any issue on which both branches of Congress have acted with such unanimity.

Both the House and Senate have expressed their unaltered opposition to the admission of Red China. In the Foreign Aid appropriation the Senate wrote in a declaration showing that Congress "hereby reiterates its opposition to the seating in the United Nations of the Communist China regime." In a further resolution it added that such action would gravely injure the U.N. and impair its effective functioning. The House

action expressing the same sentiment was adopted by a vote of 391 to 0. The Senate's action was also by a unanimous vote.

In this issue the members of Congress have been highly responsive to the often expressed will of their constituents. The people of this country are overwhelmingly opposed to admitting Red China and have so expressed themselves many times in petitions to the President and Congress.

It is reported that President Eisenhower on his recent visit to Panama solicited the aid of the Latin American U.N. members in defeating the expected attempt to admit Red China at the November meeting.

If the United States delegation to the general assembly meeting airs its opposition to admitting Communist China and lets it go at that, it seems possible that Red China will have enough votes to get in. If all of the nations, including Great Britain and Russia, are given to understand, however, that the admission of Red China might cause the withdrawal of the United States, the chances of the Communists getting in would be greatly reduced. Not many of the U.N. members, most of all Russia, would like to see this country pull out of the organization.

THERE'S CAUSE FOR STERN MILITARY METHODS

(Myrtle Beach (S.C.) Sun)

... History has proven that the Marine Corps has the best trained fighting men and if it were not for the most rigid type of training, many of these men would never have returned from the battle zones.

Rigid discipline measures came about because mothers and fathers never taught their children the meaning of "no." The authors of new child raising methods, the teachers of "progressive education" have had their field day and if you don't believe so, look around you in our juvenile courts, in our homes and in our schools. Why have so many of our experienced teachers left the profession? Low wages was not the only cause but new methods where the child must not be frustrated has caused these teachers to leave for other fields.

One of our young participants in the South Carolina Beauty Pageant made it clear that she did not want to go into teaching because discipline had been thrown out the window.

Our child experts have failed to realize that discipline was part of teaching a child to love his parents. Recently we have talked with many of our older citizens who have thanked God that their parents were stern but fair.

Proper discipline breeds respect. Respect breeds a set of ideals and ideals are a basis for honesty and love.

THE WRONG WAY TO PROTEST

(Petal (Miss.) Petal Paper)

Most Americans will agree that burning a fiery cross in front of the residence of the Chief Justice of the United States is shocking. It cannot be dismissed as a "prank." It is an outrage.

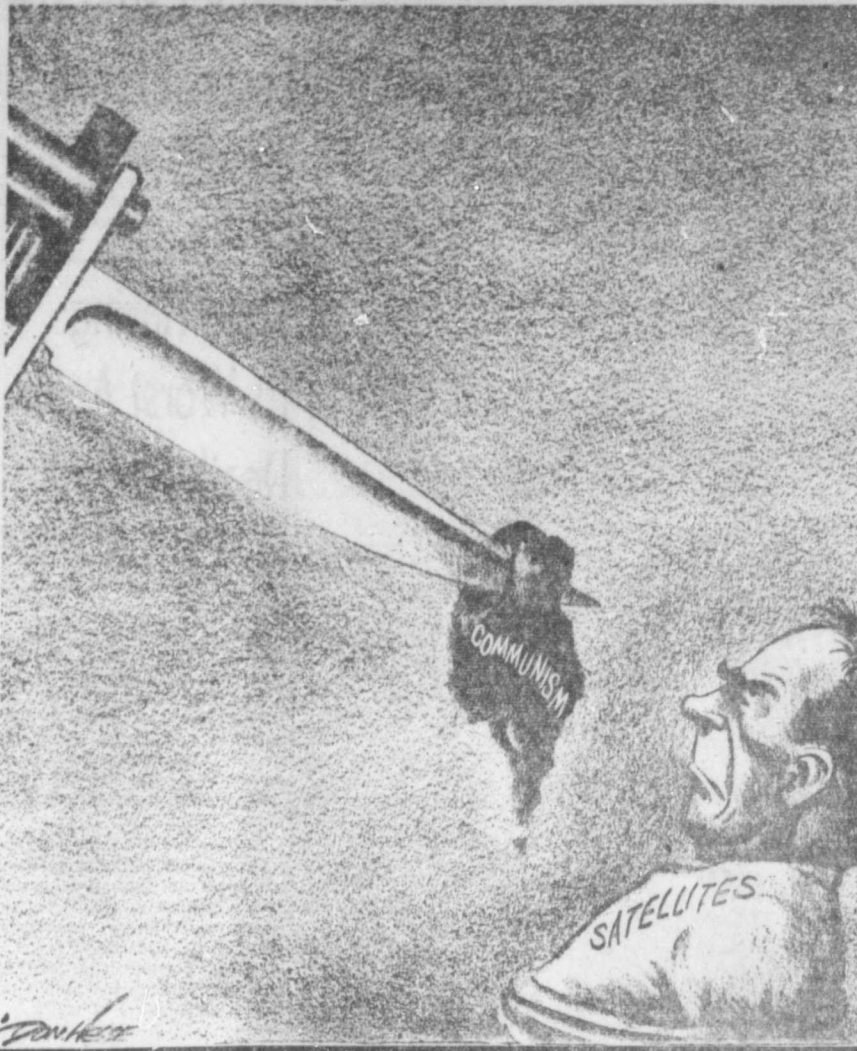

Something has gone wrong in our society when a college student, presumably with associates, thinks that this is the way to express dissent from a position taken by the highest court in the land. This is not the way that we live in our democracy.

Our Constitution stipulates that we may assemble peacefully to petition for the redress of grievances. It does not protect hooliganism. Nor is it established that the Supreme Court's decision on segregation in the public schools is a "grievance." It is an attempt to offer a

considered legal judgment on a complex social problem. It is not arbitrary or thoughtless. There are abundant opportunities to work within the decision. There is no excuse for making it the occasion for cross-burning.

We will not solve a problem such as that presented by the court's decision unless we approach it with calmness and resolution. It will take time and the court recognized that fact. But it will also take patience and good sense, as well. We don't make progress toward that solution with episodes such as this student "prank." There are limits to playfulness and they have been overstepped in this case. The implications are serious and they should be regarded in that light.

RATHER WARM? No wonder. Those two high-pressure areas—Chicago and San Francisco—are shoving all that hot air this way.

I got the impression from the Democratic session that, after 23 years, they were still running against Herbie Hoover.

And at the GOP session only about one out of four orators used the phrase, "that great American," whereas at Chicago every one was either great or the greatest. I recommend an intensive survey before the 1960 sessions to find a synonym that won't grate.

NEWSPAPER ADS, radio and TV convince me that the success of Palm Springs in proving that the desert is a great place to really live, has influenced developers to chop up any place where there are sand dunes and sage brush into building lots and offering them to the public with enticing words.

In my belief, they'll never menace the popularity of Palm Springs.

We've got it all in our harbor in the angle of the mountains west and south. Those towering masses back of us not only keep out the fog and smog from the coast and provide recreation, but they also serve as a gigantic ventilating system to keep our atmosphere free from auto exhaust fumes and other elements which might pollute the air.

Harry Fishbeck has a diagram proving how the mountains continuously provide an updraft that keeps our air untainted. Of course, the updraft might bring in some hotter air from the east but it takes away all of the fumes.

MY APOLOGIES to Charley Farrell for mentioning that in one of the episodes of his TV program they showed a coiled rattler in the desert. It wasn't our desert, for those were stock shots.

The first chapters of the Charley Farrell show were not all filmed here but at a Hollywood studio, according to what I hear. Charley has plans to shoot the next series of episodes right at the Racquet Club.

Here's a welcome word for harassed mothers. Touring Southern California I note that in most communities, road crews are freshening up those yellow crosswalk signs. It won't be too long now before mother's vacation begins and the schools will clear out those little monsters, (depending on whose kid it is) from underfoot.

Something About Second Childhood

The brain changes that occur in old age very frequently set free creative impulses similar to those which are found in young children. A proper understanding and use of these can be very helpful in the care and management of old people.

The term "Second Childhood" should not be used in a derogatory sense. It should be considered a dual phenomenon which brings a new positive and hopeful meaning to the mental reaction of the aged. There is, of course, what we recognize as a senile or old-age psychosis which is due to changes in the blood vessel structure that meanders through the brain and limits the circulation to the brain cells. This may be either hardening of the arteries and a narrowing of their center, preventing adequate nutrition, or small hemorrhages or blood clots which, removing nutrition from the portion involved, cause a cessation of the function in these portions of the brain.

THERE IS ALSO A normal second childhood which is found in the normal state of growing old, something which returns the individual to the former unresolved conflicts of childhood, and the peculiar defenses associated with them. This normal second childhood also brings back the creative, the capacity for learning, for pleasure, and for the fulfillment of these which are the distinguishing marks of childhood.

Taking the various periods of life, we find the infant which is in the process of development and which does not have resources which will assert themselves in the instincts of self-preservation. This danger is a modifiable one.

In adolescence and maturity, the assertive danger is found in interference with sexual instincts which also can be modified through proper education. Danger in old age comes from an environment which interferes with the instincts of self-preservation, but here the danger cannot be modified. We find in the aging person the various illnesses and structural tissue changes which result in an anxiety to external insecurity. Such insecurity

creates a reduction of the capacities of the individual, and are a challenge to his remaining mentality or physical powers.

WHEN ONE CONSIDERS the significance of mental disease, it is realized that to minimize the disturbance nature embodies in cellular life, and chemistry tends to change just as trees and other plants may often bloom after a serious injury to them.

Students in this field frequently question the phenomena of some of these elderly individuals maintaining their normal ability to function physically and mentally without evidencing any minor episodes of diseased tissue, while others may show rapid deterioration of tissue structure at a much earlier age than should be for the average.

Much research is being done to determine the physical factors that might be responsible for the development of mental aberrations in the aged. At this time we can say that the minute microscopic studies of the brain have not yielded much information between alterations from the normal brain structure with a continuity of normal intellectual life.

FROM READERS DIGEST

My friend glowed as she showed me the gift bought by her husband for her 39th birthday. "Isn't it pretty?" she asked as she held it against her. My surprise at her exuberance over a plain gray sweater must have shown in my eyes, for she said, "But wait till you see the real present!" and, handing me a little note, explained, "This was tucked in the box."

The note read: "I thought you'd like to know—when I showed your husband a lovely jeweled sweater he said, 'No, my wife's too pretty for that. I'll take the plain one. That will let her real beauty show.'" The note was signed: The Salesgirl.

Unedited

Time usually erases annoyances and dries up the spring of ignorance at which some people drink. Certainly the same element "Time" will do the same for me and thee. Quite inevitable.

So don't rant, waving your arms in the air giving vent to wrath, as certainly must have been the case in the decision of the majority of Supervisors who flouted an order of our Appellate Court to again deny Hank Gogerty and his Desert Turf Club a right to use Del Sol Road property for a racing establishment.

In refusing to grant a land use permit for the plant, Esquires William Jones, Roman Warren and Fred McCall ignored the advice of their own county counsel and brazenly denied the right of a high court to guide their judgment.

OUR OWN SUPERVISOR, George Berkey, who is heralded by action and word against the racing plant in Rancho Mirage, joined Paul Anderson in casting an eye in favor of the Turf Club. Berkey preceded his vote with a speech citing his opposition to the racing plant, but nevertheless declared in many words that right is right and wrong cannot be anything else than wrong. He and Mr. Anderson, as I stated above, bravely declared in favor of the Appellate Court's decision. But the majority of the board of supervisors, like the three little monkeys, closed their ears, saw nothing and said nothing.

FOR OR AGAINST the Turf Club and quarterhorse racing has nothing to do with the above as it is written. What is mirrored here, it is fervently hoped, is another reason why there should be a severance from the Western part of Riverside County and the creation of a Desert County.

Patience however has its many attributes and with it comes the passage of Time. Eventually there will be other faces in the room where learned men gather, known as the meeting place of the County Board of Supervisors. And Time too will erase ignorance and create respect for the laws of the land.

EARL WILSON:

Off-Beat

NEW YORK—Edye Gorme's 25 and astonishingly popular after 500 appearances on the Steve Allen TV show—but she can remember when she was practically Miss Unpopularity in person.

"I crossed the country three times on a bus with Tex Beneke's band and they all hated me so much I'd cry every night," Edye confessed to me recently.

"I was the only girl. I didn't know from all the band lingo.

"Nobody spoke to me.

"I had nothing to do on the bus but go to sleep. So I bought a ukelele... a beautiful Hawaiian instrument... and I started learning to play it on the bus.

"One day we made a lunch stop and when I came back into the bus, there was my ukelele, broken in half right on my seat!"

But, says Edye, she supposes it was good experience. Not long out of William Howard Taft High in the Bronx, she'd gone into business—had taken a night course in foreign trade at City College and became export manager (at 20) for a Spanish theatrical equipment house whose Latin clients were always sending her presents.

"My mother and father didn't want me to go into show business. I did and I didn't.

"THOSE MUSICIANS weren't very encouraging.

"Dance band musicians look upon a girl singer as just another instrument. The minute you do a gesture, they sneer at you and call you 'Star.' They don't want you performing."

"But Tex was kind and taught me a lot.

"I have a nasty habit of taking liberties with notes. I can't learn a song note for note. I suppose I think I can improvise a song, or something. Never tell that to a song writer or he's likely to hang you. Even with Steve's songs, the ones he's written, I have trouble learning them note for note.

"And when I was with Tex, I was almost fired three times because I lost the pitch.

"When I was trying to get TV auditions later through my manager, Ken Greengrass, I had the same trouble.

"They'd say 'You don't sing the melody! Gotta hear the melody!'" Edye joined Steve Allen when his "Tonight" show was still local. Everybody says Steve has an off-beat show, and Edye fit it perfectly... not only was she off-beat but off-key, off-pitch, off-melody and, at least once, she was off in the Catskills when a major event in her life occurred.

Billy Daniels got in a hassle in Harlem and was arrested.

"I was sitting in Lindy's after driving back from the mountains. I had on an old leather jacket and some beat-up pants.

"BUDDY HOWE, the agent, called and said Billy Daniels couldn't work that night at the Copacabana. Would I go on? I said 'Of course!'

"Then I realized I was insane.

Also too, there is the cost to the taxpayers of this county who will be dragged into court again to defend a second action by the Desert Turf Club.

RECEIVED A POST CARD from Bill Freedman way off in Switzerland. "I'm taking the cure here," he writes, "consisting of mineral baths, massages and the works. Gee, but I wish Palm Springs had the same to offer."

We do, Mr. Freedman. Right in Palm Springs or in nearby Desert Hot Springs and it's just as good as that offered in Switzerland.

And from the Emerald Islands more formally known as Ireland comes a message from J. Power. And I'll bet you don't know who he is, although he is well known throughout the desert. None other than that grand old Irishman, Monsignor J. Power, pastor of Our Lady of Solitude. His greetings are all here in Palm Springs and with a footnote reading, "God Bless You All."

And Mrs. Alan Kopelson writes from New York City that her daughter, Edith, is about to leave for a three-month stay in England, "and can she do anything at all for The Desert Sun in that country?" Mother and daughter have lived in Palm Springs for more than seven years and if her friends would like to write to Edith, the address is: "Sally Jean Kopelson, London Terrace, 470 West 24th Street, New York City."

AND NOW I COME with another story of a golf course. This one from a most reliable source which says that two tycoons of industry, who love Palm Springs and the game of golf, are about to launch into the financing of a \$40,000,000 course and subdivision.

I am not permitted to give the location of the proposed golf course and I promised not to reveal the name of the two who are starting the ball-rolling for this new venture. Believe me, both of them need no outside financing and either one could undertake the mammoth project singly if they so desired.

I'll have more information on this project, perhaps in the next Unedited column.

I had to be at the Copa in a half hour and had to be at Steve's rehearsal in half an hour, too.

"I dashed over to Steve's show and ran over the songs with Sketch—then started to the Copa.

"They didn't want to let me in! I looked like some hick just off the bus. The headwaiter was about to say 'Get lost, sister,' when my manager explained I was going to be the star that night.

"Then I rushed back, did Steve's show and returned for the second Copa show. I looked 10 times worse because I couldn't get the look off my face."

But she was a big hit and Jules Podell, the Copa boss, said she must come in soon as the star in her own right. She's just finished there after doing sensational business. Las Vegas is beckoning, also the State Fair... and all's well for this daughter of a Turkish-born custom tailor who's just a little bit off-pitch but evidently never off base.

Today's MEDITATION from The World's Most Widely Used Devotional Guide

The Upper Room

© THE UPPER ROOM, NASHVILLE, TENNESSEE

Hast thou faith? have it to thyself before God. (Romans 14:22) The people of a certain church had saved some money to build an education building by their church. An assembly of church members was held. The pastor presented the construction plans and estimated cost of the new building.

In opposition somebody said: "I consider it a great risk to take so large responsibility when our available money for this purpose is very little more than the amount of the first installment to be paid." The pastor replied: "If my brother has faith, let all be in the hands of the heavenly Father."

Two years later the building was finished. The beautiful building was an eloquent evidence of the truth how men can receive from God's hands when they have faith in God.

Now, if somebody talks of this building as a victory of men only, the pastor says, in protest, "No! It was a work of the faith!"

PRAYER
O God, we praise Thee for the unshakable faith Thou dost give. We praise Thee for Thy servants of long past days and of people we know today. Use us to do something for Thy great kingdom. We ask it in our Savior's name. Amen.

THOUGHT FOR THE DAY
God makes victories for people who have faith in him.

'Christ Jesus' To be Sermon

"We have seen and do testify that the Father sent the Son to be the Saviour of the world." These words from I John (4:14) are the Golden Text of the Lesson-Sermon "Christ Jesus" in all Churches of Christ, Scientist, Sunday.

One section of the sermon is built on the healing of "a woman which had a spirit of infirmity 18 years, and was bowed together, and could in no wise lift up herself." The account by the Apostle Luke continues with Jesus' words, "Woman, thou art loosed from thine infirmity," and the record states, "And immediately she was made straight, and glorified God." (13:11-13)

A correlative passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy

declares, "The highest earthly representative of God, speaking of human ability to reflect divine power, prophetically said to his disciples, speaking not for their day only but for all time: 'He that believeth on me, the works that I do shall he do also;' and 'These signs shall follow them that believe' " (p. 52).

Girl Graduate

Lovely Marily Carrara, 18, was graduated from Staples high school without attending a class there. She was tutored at home where she's confined to a wheelchair with arthritis. Described as a better-than-average student, she got an "A" for a term paper entitled "Happiness Is Where You Find It."

High Schoolers Win Honors at Home

There was much excitement as the high-schoolers of the Community Church returned from an exhilarating and inspiring week at the Forest Home Christian Conference. They brought home the swimming trophy as a group, and Jeri Sale received the diving trophy.

Activities continue at the usual fast pace. On Sunday, September 9, all of the young people will be going to San Diego to be present at the installation of Rev. Deran Yalton.

Many prayers were answered as news arrived that one of the young people, Jerry Ann Luke, had a successful operation on her eye at Saint Bernardine's Hospital in San Bernardino.

This Sunday Rev. Stoddard con-

cludes his four-week series on the subject, "The Fruit of the Spirit." The evening service will be conducted by James McManus, who will be continuing the series on "Great Books of the Bible," with the sermon subject on "Jonah — the Unwilling Messenger."

'Worth Your Salt'

To Be Sermon Topic

"Worth Your Salt?" is the query which will form the sermon topic of the Rev. A. Keith Bauserman at the 11 a.m. services Sunday of the Desert Hot Springs Baptist Church.

At the 7:30 p.m. service the Rev. Mr. Bauserman's topic will be "Take Heed!"

Nearly 6,500 students, most of them American servicemen studying in off-duty time, are enrolled in the University of Maryland's overseas program.

MR. AND MRS. FREDERICK BIRD, who are prominent in trailer circles in Florida, are pictured poolside at DeLuxe Trailer Park, where they have spent two weeks while inspecting mobile home parks in this area. (Desert Sun photo).

Leading Florida Trailer Park Official Wife, Inspect Facilities in Desert Area

De Luxe Trailer Park has had some distinguished guests the past two weeks. Mr. and Mrs. Frederick Bird of Miami, Florida.

Mr. Bird is well known in trailer circles in Florida. He is vice-president of the Florida Mobile Home Association, and director of the Third Division in Florida, and vice president and manager of the Bell Haven Trailer Park in Miami, one of Florida's largest and most beautiful trailer parks.

The Birds drove leisurely up the coast visiting many of the trailer parks, partly on business and partly on vacation. Previous to coming to Palm Springs they spent six weeks traveling through Mexico visiting the larger parks.

Mr. and Mrs. Bird were much impressed with the beautiful trailer parks in the Palm Springs desert area, and spoke particularly of the friendly and cooperative spirit among the parks and the absence of a competitive attitude. They were surprised to learn that guests were privileged to attend one another's dances and parties, and even often to exchange talent if needed. After visiting trailer parks in Palm Springs he says he is carrying back with him many new ideas.

Lucks Entertain Houseguests From Mississippi

Mr. and Mrs. A. A. Luck of 675 Mesquite Avenue entertained houseguests for the past week. They included Mr. and Mrs. F. J. Finger and children, Tommy 6, and Jerry 9, of Cornight, Mississippi, and Mr. and Mrs. D. F. Lawrence and children, Jimmy 7, Jerry 3, and Patty 1, of Duarte.

The Finger family arrived the first of the week and remained until Sunday. The Lawrence family arrived Tuesday and were here for four days.

On Tuesday evening Mr. and Mrs. Luck entertained their guests with a steak barbecue in the patio around the pool.

Monday evening the Lucks with their children, Tommy 7, and Bonnie 8, will motor to Silver City, New Mexico, to visit relatives for a few days. From there they plan to go see points of interest along the way, which will include the Petrified Forest, Boulder Dam and Grand Canyon.

JOHN NOYES, Manager, assisted by his charming wife, ELEANOR.

TWO YEARS AGO Miami Beach's then-mayor, Harold Shapiro, right, presented Miami Beach's municipal key to Mayor Florian Boyd of Palm Springs. Returning the courtesy at Miami Beach were Villagers Adrian Rosen, left, Director of the Cham-

ber of Commerce, and Leo Baker, director, Retail Merchants Association, who visited this Florida resort city. (Miami Beach News Bureau Photo).

Clare Ballagh Starts Two Weeks Duty

Air Force Reservist Clare Ballagh is now in camp at Mira Loma. He reported for duty the beginning of the week and expects to be gone another week. He was promoted from Captain to Major two months ago.

The Ballagh family recently returned from a long motor trip east. With their children, Mary Lou and Phillip, they left Palm Springs a month ago and headed for Michigan. They visited with parents of Mr. Ballagh in Sault St. Marie and then traveled through the state to see other relatives.

Returning west they stopped in Colorado to call on friends, and then took a trip through Yellowstone National Park and on to Idaho to visit points of interest.

An interest in riding enthusiasts in the Village is the fact that the Ballaghs are the guests of Mr. and Mrs. Robert Palmer at Loveland, Colorado. The Palmers are frequent visitors here and enjoy the activities of the local Los Compadres and Desert Riders. Mr. Palmer was president of the fair board in Loveland, and while the Villagers were there they attended a spectacular rodeo in conjunction with the fair.

Groth Entertains Jerry Campbell

New Attachment Stops Seam Ravel

New for the home seamstress: A device which makes it possible for the first time to stitch a ravel-free finish on raw seam edges with the sewing machine.

The manufacturer of the automatic overcaster says it works as well on sheer materials as it does on bulky woolsens and slipcover materials. The attachment is designed to fit most standard straight-needle machines. (Griest Manufacturing Co., New Haven, Conn.).

Walter Fogles, Vern House of DHS Give Report on Conditions in Alaska

Mail from Alaska arrived in quantity in Desert Hot Springs last week, with letters from Mr. and Mrs. Walter Fogles, who are vacationing in the northern territory, and from Vern House, who is working in Alaska this summer.

The Fogles, who made the entire trip north by automobile, wrote from Fairbanks that "this is truly a city of contrasts—an 11-story modern building rubbing shoulders with an old, old log building."

"Most plentiful," the Fogles report, "are the liquor stores, bars and cocktail lounges," but they add charitably that "perhaps the reason for this is the fact that the water is unfit for drinking. People buy 'well water' for five cents per gallon, delivered to their door."

Accommodations are scarce and rents high in Fairbanks, the Fogles found.

Prices are reasonable in Fairbanks, except for items that must be flown in—such as Sunday newspapers, 56 cents; milk, 50 cents per quart; bread, 50 cents a loaf.

Ranes' to Visit in New York City

Mr. and Mrs. Hy Ranes (he is city planning director) and their 10-month-old daughter, Michelle, will leave Wednesday for New York City, where they will spend a three-week vacation.

While there, they will visit their parents and friends, see the latest Broadway shows (they secured tickets months in advance) and the art exhibits.

They will return to the Village about September 20.

The Macartneys said that they "are always happy to welcome their friends and associates from Palm Springs and Palm Desert," both of which churches were ministered to by Dr. Macartney over a period of 17 years.

Mr. and Mrs. Hutch Mosely were the guests of friends in Long Beach over the weekend. They highlighted their visit by attending the Los Angeles Sheriff's rodeo.

Welfare, Aid Agency Keeps Active Here

Welfare activities of the Welfare and Friendly Aid Association continue during the summer, though at a slower pace. The Welfare Secretary, Mrs. Joan Nickerson, is on call when needed.

At the present time, the problems of a young widow and her four-month-old son are under consideration. The young mother must work but cannot do so until she finds some responsible woman to live with her to take care of the baby. She offers room and board and a small salary in exchange for the baby's care.

Any person interested in this type of arrangement is requested to call Mrs. Nickerson at 3807 or 5688.

The Welfare and Friendly Aid office at the Health Center on Amado Road will be open Monday through Friday from 1 to 3:30 starting September 12. In the meantime, calls are being handled by calling either of the above numbers.

Palm House Softballers Win Close Championship Race

The Palm House, paced by the hitting and fielding of Jimmy Judd and the usual steady pitching of Paul Neilson, defeated the Desert Nite Hawks Wednesday night to win the 1956 championship of the Desert Softball League.

This was the closest race in years, with the final decision in doubt until the last week of play. Four teams fought to the end, with the Palm House coming through with victory after victory in the final stages, with many of the wins due to last inning rallies.

The champions this year finished third in league play last season, but won the playoffs.

Red Kean is the manager of the Palm House winners, with stars of many of the games being pitcher Neilson, Judd for his hitting and fielding, and Max Melton, also for his batwork and fielding.

The Palm House took an early 4 to 0 lead against the Desert Nite Hawks, and then added two in the sixth for insurance. The losers scored single runs in the fifth and sixth.

The line score:

	Palm House	Desert Nite Hawks
Runs	6	2
Hits	10	8
Errors	0	1

Paul Neilson and Jack Buchanan; Phillip Lewis and James Parker.

Palm House, already assured of the league title, closed its regular season Friday night with a 7 to 3 victory over Laurie's Steak Ranch.

Bobby Melton led the attack for the winners with three hits in three trips to the plate.

The line score:

	Palm House	Laurie's Steak Ranch
Runs	7	3
Hits	10	8
Errors	0	1

Pow Wow, in its final action of the regular league season, scored a 6 to 4 win over the Mexican Colony and thereby finish in second place.

Pow Wow took a 5 to 0 lead by the first half of the fourth, and added its other run in the fifth. Mexican Colony scored two runs in the fourth and seventh.

Bob Hammond led the winners with a home run and a double.

The line score:

	Pow Wow	Mex. Colony
Runs	6	4
Hits	10	8
Errors	0	1

Bill Purdom and Joe DeGaroff; Frank Prieto and Art Jurado.

Pony and Colt Teams Lose to Maywood Nines

Maywood Pony and Colt League teams took revenge on the Palm Springs teams Friday night, defeating the local squads 5 to 4 and 5 to 3.

The Village teams had defeated Maywood by identical scores in games played here two weeks ago.

Accompanying the local players to Maywood were Howard Haddock, city recreation director; Herb Rauch, manager, and John Marinko.

After the game the boys had dinner through the courtesy of the Palm Springs Elks Club.

The teams are co-sponsored by the City Recreation Department and the Elks Club.

Star Wisconsin Pitcher Here Visiting Father

George Schmid, Jr., who is rated one of the leading college baseball prospects in the Midwest, is currently visiting his father, George Schmid, 33-640 Rancho Vista Road, Outpost Estates, before returning to the University of Wisconsin in Madison for his junior year.

He arrived last Tuesday via Western Air Lines, and will be here until September 1.

In his first season with the Badgers, he posted four wins and one loss, and is rated top pitcher on the squad this year. He went to Madison after an outstanding prep career at Oconomowoc High School in baseball, basketball and football.

This past summer he played semi-pro ball for Pierre, South Dakota, and won his first five games before going into a slump and dropping four.

Twenty years of age, he hopes to try out for a professional baseball career as soon as his college days are completed.

Social Security Soon Payable to Women at 62

Several important changes have been made in the federal old-age and survivors insurance program as a result of the Social Security amendments of 1956 which President Eisenhower signed into law on August 1.

Effective with November of this year, benefits will become payable to women when they reach age 62. Survivors benefits for widow and, in certain cases, mothers of deceased workers will start with a payment for November which will be received early in December.

The amount of the monthly payment will be the same that they would have started getting at age 65 under the old law.

Beginning with November 1956, retired insured women workers and wives of retired insured workers can start getting benefit payments at age 62. In these cases, the amount of the payment will be somewhat less than the amount

that would have been payable at age 65 under the old law.

A change has been made in the total disability provision in the law. While the "disability freeze" provision which protects the social security insurance rights of workers is continued, monthly cash benefit payments beginning with July 1957, will be made to totally disabled workers when they reach age 50.

Desert Softball League Playoffs Start Tuesday

Seventeenth annual Desert Softball League Playoffs will start tomorrow night, Tuesday, at 8 p.m., at the Polo Grounds, with four teams competing for the post-season honor.

Entered are the league's new champions, the Palm House, Pow Wow, Desert Hot Springs, and the Mexican Colony.

Both the first round playoffs and the championship round between the winners will be two games out of three. Competing in the opening action are the first and third teams, and second and fourth place winners.

Judging from season play, which saw the championship in doubt until the final week of action, the playoffs should be one of the best ever held, according to Howard Haddock, city recreation director.

Admission is free, and the public is invited.

Trophies to team and individual winners will be presented on the final night of the playoffs.

The first round playoff schedule follows:

August 28, Palm House vs. Desert Hot Springs.

August 29, Mexican Colony vs. Pow Wow.

August 30, Palm House vs. Desert Hot Springs.

August 31, Mexican Colony vs. Pow Wow.

September 4, if necessary, Palm House vs. Desert Hot Springs.
